

Left hand side shows "Standard" Installer (Sx), Right hand side the Advanced installer (Ax).
 This installer should work in graphical mode but the user should be able to control it with either mouse or keyboard.

S4

Setting up partitions

This may take some time

ABORT ?

Back Line in circle is animated to show the user something is happening.

S5

Pick what you wish to install

<input checked="" type="checkbox"/>	Office	100 MB
<input type="checkbox"/>	Education	100 MB
<input checked="" type="checkbox"/>	Games	200 MB
<input type="checkbox"/>	All	600 MB

Disc space required : 600MB

Check Media :
(only use if you have had problems installing)

BACK **NEXT**

S6

System Installation

Your system will now be installed

You can change where the system will be installed by selecting "ADVANCED".

BACK ? **ADVANCED** ?
OK ?

A3

<input type="checkbox"/>	Windows XP	15 GB
<input type="checkbox"/>	Home	15 GB
<input checked="" type="checkbox"/>	Yoper	4 GB
<input type="checkbox"/>	Swap	0.5 GB

Files are normally installed in "Yoper"

SETUP DRIVE ? **BACK** **NEXT**

↑ Back ↓ Next

A4 Pick the Partitions which will be bootable

Bootable	Partition	Label	Default
<input checked="" type="checkbox"/>	Windows XP	Windows XP	<input type="checkbox"/>
<input type="checkbox"/>	Home	Home	<input type="checkbox"/>
<input checked="" type="checkbox"/>	Yoper	Yoper	<input checked="" type="checkbox"/>
<input type="checkbox"/>	Swap	Swap	<input type="checkbox"/>

Home and Swap should not be made bootable

BACK NEXT

↑ Back ↓ Next

A5 Pick the drive on which you wish to install the bootloader

<input checked="" type="checkbox"/>	Master 0 : 30GB
<input type="checkbox"/>	Master 1 : CDRW
<input checked="" type="checkbox"/>	Slave 0 : 100GB
<input type="checkbox"/>	Slave 1 : DVD-ROM

The first drive is usually bootable

BACK ADVANCED NEXT ?

ADVANCED gives options of where to put bootloader: i.e. MBR, Partition, No installation, Recovery.

↑ Back ↓ Next ↙ Next

S7 Installing Yoper

This may take some time

ABORT ? NEXT

A6 Finished!
Yoper is now Installed

YOPER will Reboot in 15 seconds

REBOOT

Back Line in circle is animated to show the user something is happening. NEXT is greyed out until installation is complete.

Bootloader installation and system setup is also performed here. Previous installer is backed up so installer can find and restore it if necessary.
